

PRS® LITE

MAG1159

BLK, FDE, ODG

NSN:1005017133885

The PRS Lite provides much of the same adjustability and many features of our PRS GEN3 Precision-Adjustable Stock, with the added benefits of reduced weight and a price that's almost half of its fully featured counterpart.

Designed to military standards, the PRS Lite is intended for carbine/SR25/A5 extension tubes for .223 and .308 receiver-pattern rifles. At 10 ounces lighter than the PRS GEN3, it provides an optimized shooter interface with .8" of comb height and 1.4" of LOP adjustments. The low-profile rubber butt-pad is adjustable for height and cant and provides an extremely stable interface with the shooter's shoulder. There are multiple attachment options for slings, including an ambidextrous 1.25" footman's loop, a reversible QD sling swivel cup, and space for another optional QD sling swivel cup.

FEATURES

- Adjustable LOP (13.85-15.25" in .14" Increments)
- Adjustable comb height (adjusts from flush to +.8" in .1" increments)
- Weight: 18.2 OZ
- 1.25" ambidextrous footman's loop in the rear
- Reversible rotation-limited QD sling swivel cup in front
- QD sling swivel cup in the rear

COMPATIBILITY

- Carbine/SR25/A5 receiver extension tubes
- Fits .223 and .308 receiver pattern rifles
- Not compatible with A1/A2 rifle tubes
- Not compatible with rifle-length receiver extensions
