

ASAP® QD – AMBIDEXTROUS SLING ATTACHMENT POINT QD

MAG529

BLK

NSN: 1005016659426

The ASAP-QD replaces the standard AR15 M4 carbine stock receiver end plate, facilitating easy transitions from primary to secondary sideshould-ers. The ASAP-QD works with all push-button QD sling swivels, and is canted slightly downward for greater freedom of movement and to create a finished look to the end of the receiver.

Made from precision cast Melonite® finished steel, the ASAP-QD is com-patible with both mil-spec and commercial-spec carbine receiver extensions (buffer tubes).
