BLK

NSN:1005015765159

The PMAG 30 AR/M4 GEN M2 MOE is a 30-round polymer magazine for AR15/M4 compatible weapons chambered in 5.56x45 NATO/.223 Remington that offers a cost-competitive upgrade from the aluminum USGI magazine.

It features impact-resistant polymer construction, an easy-to-disassemble design with a flared floorplate for positive magazine extraction, a resilient stainless steel spring for corrosion resistance, and an anti-tilt, self-lubricating follower for increased reliability.

Magpul Original Equipment (MOE) is a line of firearm accessories designed to provide a high-quality, economical alternative to standard weapon parts. The MOE line distinguishes itself with a simplified feature set, but maintains Magpul engineering and material quality.

Made in the USA.

PMAG® 30 AR/M4 GEN M2 MOE®

- 30-round reliability and no stoppages
- Next-generation impact and crush-resistant polymer construction
- Modified dimensions allow for wider compatibility with non Colt-spec 'STANAG 4179' platforms
- The anti-tilt, self-lubricating follower ensures a smooth feed and magazine reliability
- Constant-curve internal geometry, over-travel insertion stop on the spine, and a long-life stainless steel spring ensure smooth feeding
- Paint pen dot matrix panels on the bottom of the body to allow for identification marking
- Its ribbed gripping surface and aggressive front and rear texture provide positive magazine handling
- Improved slimmer floorplate aids magazine handling and disassembly and is slim enough for use with many double and triple pouches
