NSN:1005017171269

NSN:1005017171275

M-LOK Type 2 Rail Covers are low-profile, two-piece covers that install directly onto most M-LOK aluminum hand guards (not compatible with polymer rails). This pack of six M-LOK covers is not orientation specific, which allows the user to mount them in any direction desired without affecting function. Not compatible with MAGPUL MOE M-LOK, MOE SL and SGA forends, and may not be compatible with free-float hand guards that have a wider and flatter profile, as they will not seat deep enough to allow the center portion to lock down.

Featuring beveled contours that minimize potential snagging, our TSP texture for additional grip, and a protrusion that's only slightly more than 1/8" from the mounting surface to maintain its low-profile. The center locking tab is pre-scored to allow the user to snap off sections and mix and match colors for a customized look.

Includes six panels, each covering one M-LOK slot.

Made in the U.S.A.

# M-LOK® RAIL COVERS, TYPE 2

MAG603

BLK, FDE, GRY, ODG

- Not orientation specific; no up / down, left / right, front / back orientation
- Contact surfaces include TSP for better grip
- Covers protrude only 1/8" above the rail surface
- Covers can be installed or uninstalled in seconds using a simple, pointed tool
